**About Us:** Newground, the nation's first Social Purpose Corporation and a pioneering SRI-ESG-Impact investment advisor, was founded to serve clients who wish to create positive social and environmental outcomes without sacrifice to financial performance. Our individual and institutional clients are principled, proactive, and inspired to make a difference with their investments.

Now enjoying its third decade, Newground is a fiduciary, fee-only Registered Investment Advisor that is nationally known for its unique brand of sustainable impact investing which, in addition to analysis, screening, and impact community investment, features shareholder engagement – through which corporations are called to embrace sustainability and to address the environmental, social, and justice issues that arise out of their operations.
